EXPERIENCE

Alpha Labs

San Francisco, California

Cofounder

April 2018 – Present

- Worked with the Cool Cats team to release NFTs that did \$9m in total trading volume; trended #1 on OpenSea.
- Launched Megapot on Blast L2 and got 1000s of transactions and \$150K of liquidity locked in it.
- Launched Virtuoso Club on Base L2 and got 100s of users playing around with it. Got a grant from Coinbase.

Coinbase

Remote

Product Manager

Feb 2020 – Jun 2022

- Started off as SWE but shifted to a PM role for my contributions on product
- Tech lead for instant withdrawals using debit cards and contributed to release of Paypal and Apple Pay
- Pitched Coinbase Onramp to Brian Armstrong and other execs; brought it from an idea to life
- Worked closely with product/eng directors and got a glimpse of responsibilities at senior leadership roles

Amazon Web Services

Seattle, Washington

Backend Engineer

Jan 2017 – Feb 2018

- Helped automate CI/CD pipelines with in-house IaC tooling
- Enabled 20+ teams internally to build automated dashboards leveraging existing encoded metrics

Microsoft

Copenhagen, Denmark

SDE I

Jul 2015 – Dec 2016

- Won an award for my contributions towards Dynamics AX 7

CERTIFICATES

OnDeck

Remote

Fellowship for Early-Stage Founders

Aug 2022

- Completed a program that helps you figure out next steps in your career
- Trainings range from navigating idea maze to building prototypes to fund-raising

Product School

Remote

Product Manager Certificate

Issued March 2021

- 8-week course that prepares students to understand product complexities
- Students are expected to write a PRD that covers user profiles, market segments, design and a lot more.

EDUCATION

Jacobs University Bremen

Bremen, Germany

Bachelor of Science in Computer Science

Graduated 2014

- Wrote my thesis on unsupervised learning exploring augmented Mean Shift algorithm
- Graduated in the top quartile of the class
- Trans-disciplinary courses in psychology and politics
